## EDUCATION

---

### **Tsukuba University**

M.E. in Computer Science.

Human-Centered Vision Lab

Overall GPA: -

Japan

*Apr 2021 - present*

### **Kyushu University**

B.E. in Mechanical Engineering.

Thesis: Solving The-Multi Depot Vehicle Routing Problem using Deep Reinforcement Learning

Overall GPA: 3.31/4.00

Japan

*Apr 2016 - Mar 2021*

## TECHNICAL STRENGTHS

---

<b>Languages</b>	C, C++, Python, Java, C#
<b>Technologies</b>	MVC, HTML5, CSS, Latex
<b>Tools</b>	MikTex, Kile, Netbeans
<b>Databases</b>	MySQL, Oracle, Sqlite, NoSql
<b>Cloud Technologies</b>	Firebase, AWS, Google Cloud
<b>Version Control</b>	Github

## WORK EXPERIENCE

---

### **Reversible Alphabet Pvt. Ltd., India**

Jun 2017 - Dec 2018

*Data Scientist*

- Created classification models for e-commerce websites using neural networks.
- Achieved exposure towards classification optimization techniques for further specialization.
- Worked under an experienced Data Scientist and got deep insights related to optimization algorithms.

### **Irreversible Alphabet Pvt. Ltd., India**

Jun 2016 - Dec 2016

- Created classification models for e-commerce websites using neural networks.
- Achieved exposure towards classification optimization techniques for further specialization.
- Worked under an experienced Data Scientist and got deep insights related to optimization algorithms.

## ACADEMIC ACHIEVEMENTS

---

Project 'XYZ' won Best Project under Environmental Solver category under AICTE, Government of India

Received Scholarship For Higher Education(She) Component Under Inspire Scheme worth INR 4,00,000

Achieved A Grade in Diploma in Computer Science from IBM

Won First Prize in Zonal technical quiz Competition Organized by IIT, Mumbai.
